

# TERRA PARZIVAL – Europa Unfinished Masterpiece

August 1. - 5. , 2020 - will partner with [CHANGE FESTIVALS!](#)

The call of the Grail story hidden in the Slovenian Terra Parzival landscape.

If you hear it, why should you make the effort to come?

We invite you to join us for 4 days on the resonance platform: REMEMBER  
THE FUTURE.

We will listen to the ancient story of Wolfram von Eschenbach's Parzival with  
our ears tuned to the needs of the emerging future (storyteller Norman  
Skillen).

This year event 1. - 5. August is integrated in  
**EUROPA UNFINISHED MASTERPIECE**, a journey to  
polyphonic European identity.

We will listen to the ancient story of Wolfram von Eschenbach's  
Parzival with our ears tuned to the needs of the emerging future

(story teller Micaela Sauber). We will follow the challenging thoughts of Rüdiger Blankertz to re-calibrate our world-view and Miha Pogacnik will support the journey with a musical process. These three elements and our journey through the magic landscape of Terra Parzival will provide a living framework for participants' interests deepening the studies of Parzival theme in various directions. We especially welcome initiatives which have already proven to be fruitful in TERRA PARZIVAL:

- European polyphonic Identity..
- Repositioning the role of ARTS in society ( Art & Business)
  - re-composition of Society ( Threefold Social Order)
  - Healing of the earth ( biodynamic agriculture)
  - Healing of the human being
- Meeting of Waldorf teachers responsible for Parzival
